

Getting the most out of your appointment with our pre-consultation questionnaire

Our practice is using a secure service called BetterConsult to help you get the most out of your doctor appointment.

How does BetterConsult work?

BetterConsult is a "smart" pre-consultation questionnaire that asks the questions your doctor usually asks about the reason for your visit. It then prepares a summary for your doctor.

How does BetterConsult help?

By knowing this information at the start of your appointment, your doctor can spend more of your time focussed on addressing your healthcare needs.

Filling out BetterConsult helps you think through what you would like to discuss with your doctor.

Does BetterConsult protect your medical information?

Yes. With BetterConsult your medical information is private, confidential and totally secure.

The screenshot shows a mobile application interface for a GP practice. At the top, there are navigation buttons: 'Back', 'Your GP practice', and 'Feedback'. The main question is 'What is the main reason you are seeing the doctor?'. Below the question is an information icon and a note: 'Please enter one reason only (you can choose more later)'. A text input field contains the example text 'e.g. "headache" or "prescription"'. The interface is clean and user-friendly, with a light blue and yellow color scheme.

Get started with BetterConsult

- 1 Click the secure link in the SMS we sent prior to your appointment
- 2 Register or login to your free BetterConsult account
- 3 Complete the BetterConsult questionnaire
